Use the drop-down menu to code this item.

Note: Clicking on the magnifying glass next to **Primary Cancer Site** box will give you the box below. This will give you a code for the **Primary Cancer Site**. For example, the patient below has a Prostate Cancer.

Primary Site codes from ICDO-3 Topography Section Enter a full or partial term for the primary site of the tumor being reported in the below box and click Search. To view a listing of all sites leave the box blank and click Search. Search [ ] Search	**Primary Site codes from ICDO-3 Topography Section** Search [prostate] Search

Table (right box):

Code	Label
C619	Gland, prostate
C619	Prostate gland
C619	Prostate, NOS

Note 2: **Note**: Clicking on the magnifying glass next to **Type of Cancer** box will give you the box below. This will give you a code for the Histology (Type of Cancer). For example, the patient below has Melanoma. Some histology codes have many subtypes, so you may get a lot of results in your search. If something like Superficial Spreading Melanoma was searched, the exact code will pop up. The more specific the term searched, the more narrowed down the search will be. Code this field to the best of your ability.
